WANYU DU

wd5jq@virginia.edu; wyu-du.github.io; @WanyuDu

RESEARCH INTERESTS

Natural Language Processing, Large Language Models, Reinforcement Learning.

EDUCATION

University of Virginia (UVa) Aug. 2020 - May 2024 (Expected)
Ph.D. candidate in Computer Science
Advisor: Yangfeng Ji

University of Virginia (UVa) Aug. 2018 - May 2020
Master of Science in Computer Science
Advisor: Yangfeng Ji

Dongbei University of Finance and Economics (DUFE) Aug. 2014 - Jul. 2018
Bachelor of Management in E-Commerce

EXPERIENCE

Research Assistant - UVa ILP Lab Charlottesville, VA
Advised by Yangfeng Ji *Jan. 2019 - Present*

· Developed a data-efficient reward function to align large language models in generating faithful and informative responses.
· Proposed a two-phase self-training algorithm for few-shot task-oriented dialogue generation.
· Developed a data-efficient controlled text generation method for open-domain dialogue generation.
· Designed a novel variational encoder-decoder model with Gaussian Process priors for text generation with high quality and diversity.
· Investigated efficient reinforcement learning algorithms for paraphrase generation.

Applied Scientist Intern - Amazon AWS AI New York, NY
Advised by Song Feng, James Gung, Yi Zhang, Saab Mansour *May 2023 - Aug. 2023*

· Developed a novel prompt-based controllable text generation method for large language models.
· Constructed large-scale simulation datasets that annotate task-oriented dialogues with dialogue flows.
· Performed parameter-efficient instruction-tuning with large language models on simulation datasets.

NLP Research Intern - Grammarly Engineering Vancouver, BC
Advised by Dongyeop Kang, Vipul Raheja *Jun. 2021 - Dec. 2021*

· Proposed a novel approach to model human iterative text revision behaviors.
· Constructed new data resources for iterative text revision tasks.
· Designed human-in-the-loop iterative text revision systems.

NLP Research Intern - Tencent AI Lab Bellevue, WA
Advised by Liwei Wang, Yangfeng Ji *Jun. 2020 - Dec. 2020*

· Proposed a novel evaluation dimension, communicative intent flow, to evaluate the coherence between interactive conversations in open-domain dialogues.
· Designed a communicative intent annotation schema and conducted crowd-sourcing human annotations on two benchmark open-domain dialogue datasets.

HONORS AND AWARDS

Best Paper Award at the First In2Writing Workshop	2022
UVa Computer Science Scholar Fellowship	2020
UVa Academic Excellence Fellowship	2018
DUFE Outstanding Graduates	2018
DUFE First Place Scholarship	2014-2018
National Data Driven Innovation Research Competition: National 2nd Prize	2018
Mitsubishi UFJ Trust Scholarship	2017
Citi Financial Innovation Application Competition: National 3rd Prize	2016

SERVICE

Program Committee	EMNLP, DialDoc Workshop, In2Writing Workshop	2022-2023
Reviewer	ACL, EMNLP, NAACL, CoNLL, ACL Rolling Review	2020-2023
Organizing Team Member	GEM Workshop at ACL 2021	2021

TEACHING

CS 4501 Reinforcement Learning, Teaching Assistant	2022
CS 6316 Machine Learning, Teaching Assistant	2022
CS 6501 Interpretable Machine Learning, Teaching Assistant	2022
CS 6501 Natural Language Processing, Teaching Assistant	2021

TECHNICAL SKILLS

Programming Language	Python, Java, C, SQL
Software & Tools	Pytorch, Tensorflow, MATLAB, Neo4j
