

WANYU DU

Email: wd5jq@virginia.edu; Homepage: wyu-du.github.io

RESEARCH INTERESTS

My research interest is natural language generation. In particular, I am interested in conversation modeling, few-shot learning, interactive and iterative text generation, open-domain dialogue generation & evaluation, and reinforcement learning for dialogue systems.

EDUCATION

University of Virginia (UVa), US Aug 2020 - Present

PhD student in Computer Science, Advisor: Yangfeng Ji

University of Virginia (UVa), US Aug 2018 - May 2020

Master of Science in Computer Science, Advisor: Yangfeng Ji

Dongbei University of Finance and Economics (DUFE), China Aug 2014 - July 2018

Bachelor of Management in E-Commerce (Top 1%)

RESEARCH EXPERIENCE

Research Assistant - UVa ILP Lab Jan 2019 - Present

Advised by Yangfeng Ji

- Proposed a two-phase self-training algorithm for few-shot task-oriented dialogue generation. [**Under Review**]
- Developed a controlled text generation method for open-domain dialogue generation, which controls the generation of Transformer-based pretrained language models under the low-data setting. [**EMNLP 2021 (Findings)**]
- Designed a novel variational encoder-decoder model with Gaussian Process Priors for text generation with high quality and diversity.
- Investigated efficient reinforcement learning algorithms for paraphrase generation. [**EMNLP 2019**]

NLP Research Intern - Grammarly Engineering June 2021 - Dec 2021

Advised by Dongyeop Kang, Vipul Raheja

- Proposed a novel approach to model human iterative text revision behaviors.
- Constructed new data resources for iterative text revision tasks.
- Designed human-in-the-loop iterative text revision systems. [**ACL 2022 & In2Writing Workshop**]

NLP Research Intern - Tencent AI Lab June 2020 - Dec 2020

Advised by Liwei Wang, Yangfeng Ji

- Proposed a novel evaluation dimension, communicative intent flow, to evaluation the coherence between interactive conversations in open-domain dialogues.
- Designed a communicative intent annotation schema and conducted crowd-sourcing human annotations on two benchmark open-domain dialogue datasets. [**Under Review**]

HONORS AND AWARDS

Best Paper Award at the First In2Writing Workshop	2022
UVa Academic Excellence Fellowship	2018
DUFE Outstanding Graduates	2018
DUFE First Place Scholarship	2014-2018
National Data Driven Innovation Research Competition: National 2nd Prize	2018
Mitsubishi UFJ Trust Scholarship	2017
Citi Financial Innovation Application Competition: National 3rd Prize	2016

SERVICE

Reviewer	ACL, EMNLP, NAACL, ARR	2020-2022
Organizing team member	GEM Workshop at ACL 2021	2021
Invited talk	“Efficient Learning Algorithms for Paraphrase Generation” at UVa AIML Seminar	2019

TEACHING

CS 4501 Reinforcement Learning, Teaching Assistant	2022
CS 6316 Machine Learning, Teaching Assistant	2022
CS 6501 Interpretable Machine Learning, Teaching Assistant	2022
CS 6501 Natural Language Processing, Teaching Assistant	2021

TECHNICAL SKILLS

Programming Language	Python, Java, C, SQL
Software & Tools	Pytorch, Tensorflow, MATLAB, Neo4j
